Historic re-enactor Jessa Piaia returns to Wells to help celebrate Women's History Month. She will present a one-person interpretation of pioneer aviatix Amelia Earhart. The setting of the program is October, 1936, when Earhart was a popular speaker on the national circuit. Ms. Piaia enthralled her audience last year with her interpretation of Clara Barton. Don't miss her return engagement. The program is free and appropriate for adults and children 10 and over when accompanied by an adult. Refreshments will be served following the program.
